FNC Advisory Committee

The Federal Networking Council Advisory Committee (FNCAC) is **chartered** by the National Science Foundation to provide the FNC with technical, tactical, and strategic advice from the constituencies involved in the NREN Program, including:

- The research and scholarly communities as end users of the networks;
- Organizations and individuals that need connectivity to the NREN;
- Electronic transmission and other facilities providers;
- Industrial developers and providers of relevant information technology and services; and
- Experts in networking and computer science who provide technical guidance to these communities.

The FNCAC consists of up to 24 members who each serve for a three-year term. Members are chosen based on their individual expertise, irrespective of their institutional affiliation.
